Welcome

President's Message

> It is my honor to welcome you to AUS. You are joining a special community of global citizens who seek to gain knowledge, skills, and experiences to make a positive impact in the world.

At AUS, we believe in the transformative power of education. Our mission is to equip students like you with the business acumen, leadership abilities, and global perspective needed to drive progress and innovation.

You have chosen to study at AUS because you aspire to something greater. You envision a future where businesses operate ethically, sustainably, and inclusively. Where leaders make decisions guided by empathy, wisdom, and integrity. Where diversity and human potential are nurtured. And where you play an active role in shaping the future of the global business community.

The journey will not be easy, but it will be rewarding. During your time at AUS, you will be challenged to think critically, work collaboratively, and step outside your comfort zone. You will build lifelong bonds with classmates from around the world. Most importantly, you will discover your unique talents and find your purpose.

With enthusiasm and optimism toward our future,

Dr. M. El Khansa
President

About AUS

The American Institute of Applied Sciences in Switzerland (AUS) is a private institution of higher education that offers its students internationally accredited Business Administration degrees. Alongside our wide range of specializations, we support students in acquiring fundamental business knowledge and developing essential skills needed to pursue their dream careers in the 21st century.

AUS is situated in La Tour-de-Peilz on the beautiful shores of Lake Geneva, between picturesque Montreux and Vevey, home to several global corporations. AUS's stunning location is well located in the middle of Europe and well connected with the major Swiss and European cities. For over three decades, AUS has provided business students with the knowledge and tools to be positive contributors to the general management of any business organization of tomorrow.

Through our dynamic business programs, AUS offers students a tailored education in a multicultural and progressive environment where cutting-edge theory connects to practical application. Additionally, AUS is surrounded by international and multinational companies, allowing students to immerse themselves in a global business environment, broaden their knowledge, and improve their social skills.

History

1963

AUS began in 1963 with the founding of the American College of Switzerland, combining American graduate education with the Swiss work ethic.

1991

In 1991, four ACS teachers founded AGSB, which later moved to La Tour-de-Peilz and grew into a leading international business school.

Today

As the institution expanded and gained prominence in international education, its name transformed to reflect its growing status.

Skill Development

Authorised Training Centre
Education

AUS shares Apple's belief that coding represents a pivotal skill for the professionals of tomorrow, and firmly believes that coding is a skill accessible to all.

As an Apple Authorized Training Center for Education, AUS extends to its students and the wider community the opportunity to embark on a journey of coding mastery, enabling them to craft innovative applications from scratch.

Embracing the world of coding not only fosters the development of essential skills but also cultivates problem-solving abilities, encourages creative thinking, and opens doors to a myriad of possibilities. To learn more we invite you to explore the Apple Training page on the website.

IBM

In collaboration with the IBM SkillsBuild Initiative, AUS students and faculty members gain firsthand insight into the latest technologies and business trends across various industries.

They also have access to certification training programs, tutorials, and real-world business use cases based on open standards and IBM technologies in crucial strategic areas

Upon successfully completing a course, students and faculty members receive professional certificates from IBM, which they can proudly showcase in their portfolios and on their CVs.

Examples of certificates that can be obtained include:

- Artificial Intelligence
- Blockchain
- Data Science
- Automation & Cloud Computing
- Cybersecurity

Discover Switzerland

Overview

Four national languages, with English widely spoken.

Efficient public transport system.

Centrally located with easy access to Europe's major capitals.

Breathtaking landscapes and harmony with nature.

Access to the EU and Schengen Zone.

La Tour-De-Peilz

Located in the heart of the Vaudois Riviera, La Tour-de-Peilz is a town of more than 12'000 inhabitants leaning against the Pre-Alps, with its feet in the water.
It benefits from a privileged environment and offers its inhabitants a rich range of sporting, social and cultural activities. The city has a number of commercial and trading companies, including the horticultural specialist Brunner Frères, the Société de gestion EVGE SA and laboratories and offices of Nestlé AG.

Learning Experience

AUS Campus

> An inspiring environment for academic achievement and personal growth

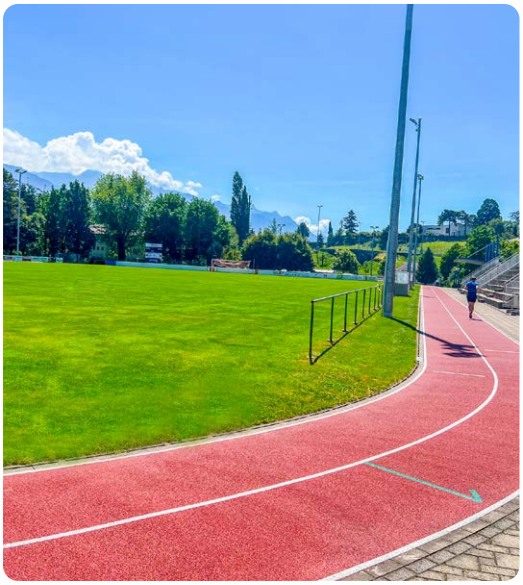

Located in La Tour-de-Peilz, in the heart of the Swiss Riviera, AUS combines modern education with the natural beauty of Lake Geneva and the surrounding mountains. The campus provides an inspiring environment that supports both academic achievement and personal growth.

Our state-of-the-art classrooms and facilities give students the resources they need to succeed. Designed with sustainability in mind, the campus reflects environmental responsibility while offering a welcoming and forward-thinking atmosphere.

AUS empowers students through a diverse, multicultural learning experience that encourages collaboration and cross-cultural understanding. Guided by experienced faculty, students receive a world-class education that develops their knowledge, skills and confidence, preparing them for success in today's interconnected world.

Benefits of studying at AUS

Classroom Experience

Experience unparalleled classroom environments at AUS, where cutting-edge business settings redefine your learning journey. With intimate class sizes and an exceptional faculty-to-student ratio of 1:7, every student enjoys personalized attention and engagement.

Student Services

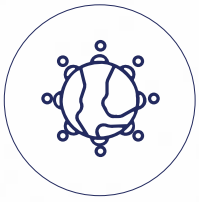

The Student Services team works with students on a one-to-one basis to assist them with practical and professional information such as:

- Integration and orientation information
- Academic counseling
- Student accommodation
- Health insurance
- Residence permit

Top-Tier Faculty

At AUS, our lecturers are business practitioners who bring years of invaluable experience to the classroom. What students learn is directly drawn from the dynamic realm of real-world business environments.

Multicultural Environment

Since 1991, fostering multicultural diversity has been our core mission. AUS proudly hosts a vibrant campus representing over 50 different nationalities, creating a truly international atmosphere

Industry Exposure

Throughout the year, AUS organizes industry visits to leading organizations, including Nestlé, Hublot, the United Nations, Swiss Post and the International Olympic Committee, offering students valuable real-world exposure.

Global Alumni Community

AUS has an international alumni network, of over 1000 graduates, that fosters networking and supports current students with their studies and career.

International Network

The AUS network helps students and alumni secure internships, advance their careers and expand their professional connections.

Extracurricular Activities

AUS offers a holistic education through year-round events that build friendships, create lasting memories and enrich university life.

My AUS Experience

> AUS fosters a sense of belonging through well-organized ice-breaker events that allow new and current students to connect, ultimately strengthening this sense of community.

My journey at AUS has been truly transformative. From the moment I set foot here, I was introduced to people from countries I had never even heard of before. This diverse mix of cultures has been an invaluable learning experience, teaching me to not only respect and connect with new people but also how to navigate cultural sensitivities.

One aspect that stands out about AUS is its emphasis on practical education. Beyond and within the classroom, I've had the opportunity to engage in hands-on learning experiences, which have enriched my knowledge and skills. Whether it's through internships, projects, or fieldwork, AUS ensures that students are well-prepared for the real world by equipping them with the hard and soft skills they need.

My journey at AUS has also been marked by shared interests and community building making memorable experiences. Exploring the picturesque landscapes of Switzerland and immersing myself in its rich culture has broadened my horizons in ways I never imagined.

AUS fosters a sense of belonging through well-organized ice-breaker events that allow new and current students to connect, ultimately strengthening this sense of community.

The approachable staff at AUS is always eager to receive feedback from students, taking the time to understand how they can enhance the student experience and foster a sense of unity within the student community.

AUS has opened endless opportunities for students, both in Switzerland and globally. Witnessing the success of AUS graduates in various careers worldwide has been inspiring.

In conclusion, my time at AUS has been an incredible journey of personal growth, cultural immersion, and practical education. The memories and experiences I've gained here will forever hold a special place in my heart.

My AUS Experience

> AUS is not just a place of learning; it's where dreams and ambitions are nurtured, and students are empowered to realize their full potential.

When I was choosing an institution for my bachelor's degree, I had a clear vision of what I was looking for. I wanted a relatively small institution that offered a personalized program where professors would take the time to get to know each student, and where the curriculum could be tailored to my specific needs and capacities. It was this pursuit of a truly individualized education that led me to AUS.

From the moment I enrolled at AUS, I could feel the difference. The commitment of AUS to provide a unique and personalized educational experience was evident in every aspect of my academic journey. The professors at AUS were not just educators; they were mentors who took a genuine interest in my academic growth. They were always accessible and willing to go the extra mile to ensure that I understood the material and was making progress in my studies.

One of the standout features of AUS's approach to education was its emphasis on practical learning. Every subject I studied and every topic I covered were directly related to real-world case studies and practical group work. This hands-on approach allowed me to immerse myself in situations that mirrored real-life scenarios, enabling me to apply the knowledge I had gained in a meaningful way. It was through this experiential learning that I truly grasped the practicality and relevance of the materials, significantly enhancing the quality of my education.

Today, as I reflect on my time at AUS, I am grateful for the exceptional education and personal growth it has provided me. The commitment to tailored programs, practical learning, and individualized attention has made all the difference in my academic and professional development. AUS has not only prepared me for success but has also inspired me to continually strive for excellence in all my endeavors.

I would wholeheartedly recommend AUS to any student seeking an higher education experience that goes beyond the conventional. AUS is not just a place of learning; it's a place where dreams and ambitions are nurtured, and where students are empowered to realize their full potential.

Living in Switzerland

Student Life

The hub of campus life at AUS is our student houses - Sharks, Tigers, and Eagles. Students and faculty run the clubs, which exemplify the energetic and creative atmosphere that runs throughout our institution.

TIGERS | SHARKS | EAGLES

The houses organize a variety of social activities both on and off-campus including sports events, barbeques, trips, quiz nights and networking events.

Being an active member of a house offers rewarding opportunities to meet new people and refine skills such as organization, teamwork, and communication outside of the classroom setting.

Our Student Committee and Student Affairs team organize various activities throughout the year such as ski trips and tours around Switzerland.

Student Housing

AUS offers fully furnished accommodation in La Tour-De-Peilz and Vevey, conveniently located near campus and suited to different budgets and needs.

Housing at a Glance

2 Locations
